Video: “Heaven is Closer than Sinai. Give Me My Liberty or Give Me Death”

“The people of Gaza will not suffer another wholesale displacement to the Sinai from their homes in Gaza.

*They have repeatedly stated that “**Heaven is closer than Sinai**” a sentiment not unlike that once championed by America in out early history – **“Give me Liberty or Give Me Death.”***

In the face of this ongoing genocide, the Biden Administration and Congress refuse to call for a ceasefire.

Provoke a Second Nakba, Transform Gaza Into a Mass of Rubble, Outdoor Concentration Camp in Rafah, Confiscate Gaza’s Offshore Maritime Gas

They continue to provide Israel with the military weapons utilized in these war crimes.

Israel’s strategy to which the Biden Administration and Congress remain complicit will only lead to more death, destruction, and insecurity for the people between the River and the Sea. It risks greater regional war. (CT Mirror)

Video. The World’s Most Documented Genocide in History

The Criminal Balance-Sheet

“Between Oct. 9 and Nov. 13, **Israel dropped more than 20,000 tons of explosives on Gaza, an area twice the size of Washington D.C**. Following the seven-day pause which began Nov.

24 and ended Dec. 1, Israel resumed its genocidal assault on Gaza. The Euro-Med Human Rights Monitor reports that Dec. 2 marked the bloodiest day since Oct. 7, resulting in over 1,000 people killed, wounded, or reported missing.

Israel’s assault on the Gazan population, nearly half of whom are children under the age of 18, continues unabated. **As of Dec. 27, The Euro-Med Human Rights Monitor reports 29,124 Palestinians killed, of which 11,422 and 5,822 are children and women.**

These numbers include those presumed dead under the rubble of homes, hospitals, and schools destroyed by Israel. Nearly 87 percent of Gaza’s 2.2 million population have been displaced, many living without shelter or in tents, and without access to medical care, sufficient food, and water, facing disease, starvation, and death.” (CT Mirror)
