Border Illegal Invasion Update

Watch and listen in real-time as the Chinese & CCP-backed invasion forces, headed for the US, with Michael Yon reporting from the Darien Province – the epicenter of the North American invasion.

Our government has been captured. The mission is to kill off the Caucasians in the US (genetic hygiene) by the “Chi-Nazis.” This is a hybrid war, combat coming soon to American streets, by a finely-tuned global army created and imported to kill us and inhabit our homes.

Biden, Mayorkas, and the entirety of the Leftist and RINO government apparatus are committing treason against the American people, using our own tax dollars to capture our nation and infrastructure, while robbing us of our sovereignty – and preparing to take our lives as well.
