

The GLOBALISTS are COMMUNISTS

[CurtisBowersAGENDA](#)

Curtis lays out the case that the globalists are all communists. While many believe they are different, Curtis shows why they are not.

Every major communist dictator of the last 100+ years was put in power, funded, and protected by the global elites. Every anti-American, anti-freedom cause or movement today is funded by these same tyrants, including COVID-19, Climate change, chem-trails, open borders, fraudulent elections, fake news, Marxist Universities, toxic medications, mutilation of our children, weaponization of justice, the destruction of the family, and the Great Reset. If we don't understand this, we won't be ready for the next BIG thing the Marxist manipulators are planning.
